

USB to Serial Adapter

UC-232A

The UC-232A USB adapter lets PC users use USB with their current external modems.

The UC-232A USB Serial Adapter provides plug and play ability for your modem. Users have the capability to utilize the adapter with serial port interface in an easy-to-use environment. The adapter is designed for ideal connections to Cellular phone, PDA, digital cameras, modems, or ISDN terminal adapters with over 500 kbps data transfer rate.

The UC-232A helps free up additional system resources. By removing the modem from your standard COM port and using the USB connection you gain further expandability from your system. With full support for 56K modems, full compliance with USB specifications, and clean bus-power operation, the UC-232A USB to Modem adapter makes a great addition to any PC system.

Features

- Supports automatic handshake mode
- Over 500kbps data transfer rate
- Supports remote wake-up and power management
- 96 byte buffer each for upstream and downstream data flow
- Easy installation
- Works with cellular phones, PDA, digital cameras, modems, and ISDN terminal adapters
- Frees your RS-232 ports for other uses
- No IRQs, no IRQ conflicts
- **1-Year Limited Warranty**
